

PAKAZHAVAN KP

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY | Chennai | +91 8428681269 |
pakazhavan2332@gmail.com | <https://www.linkedin.com/in/pakazhavan-kp/>

SUMMARY

Motivated Computer Science graduate specializing in Cybersecurity, with a strong interest in aligning security architecture and processes with industry standards and business objectives. Hands-on experience in SOC operations, security monitoring, and incident response through multiple cybersecurity internships. Skilled in EDR, SIEM, vulnerability assessment, and threat intelligence analysis aligned with MITRE ATT&CK framework. Adept at producing actionable security reports and collaborating with cross-functional teams to strengthen security posture.

SKILLS

Security Operations & IR	SIEM, Log Analysis, Threat Hunting, MITRE ATT&CK
VAPT & Offensive Security	Nmap, Nessus, Metasploit, Burp Suite, Sqlmap, Hydra, Hashcat, John the Ripper, Kali Linux
Endpoint & Network Security	EDR (trend micro), IDS/IPS, Firewalls, Protocols (HTTPS, SSL/TLS, SSH), IBM X-force
Web & Application Security	OWASP Top 10, Secure Coding (SQLi, XSS, CSRF), API Security, WAF
Cloud Security	AWS
Forensics & Traffic Analysis	Wireshark, Packet Analysis
Programming & Automation	Python, PowerShell, Bash, SQL
Reporting	Daily/Weekly SOC Metrics, Incident Documentation
Communication & Collaboration	Presentation Skills, Technical Writing, Adaptability, Team Collaboration

WORK EXPERIENCE

Cybersecurity Analyst Intern

EYEQ DOT NET | Mangalore
October 2022 - November 2022

- Contributed to EYEQ DOT NET's cybersecurity initiatives, performing hands-on tasks in vulnerability assessment, incident response, and security monitoring.
- Collaborated with senior analysts to identify and mitigate potential threats, enhancing the organization's overall security posture.
- Gained practical experience in real-world cybersecurity operations, improving analytical and threat response capabilities.
- Conducted vulnerability assessments and documented findings aligned with industry best practices..
- Maintained a self-motivated approach with a strong sense of responsibility, ensuring timely and efficient task completion.

SOC Analyst Intern

NAKOA Technologies | Coimbatore, India *March 2024 - April 2024*

- Monitored systems for potential threats and vulnerabilities using Wazuh, enhancing network security through proactive measures.
 - Maintained accurate documentation of SOC activities to facilitate knowledge sharing and improve organizational processes.
 - Conducted regular audits of security controls.
-

RESEARCH / PROJECTS

Proactive Cloud Security Threat Mitigation

Team Leader | Final Semester

- Published a paper in SSRN under the guidance of Dr. V. Hemamalini, Assistant Professor, SRM Institute of Science and Technology.
- Explored privacy and security challenges in cloud computing, focusing on logging and parsing EXIF data and metadata.
- Proposed a proactive framework leveraging advanced algorithms and predictive analytics to mitigate cloud security risks.

An Effective Approach for Reducing Severity in Web Applications Using Security Frameworks

Team Leader | Seventh Semester

- Conducted research on enhancing web application security, Assistant Professor, SRM Institute of Science and Technology.
- Evaluated and implemented security frameworks to mitigate vulnerabilities in web applications.
- Analyzed real-world case studies and performed experimental simulations to reduce the severity of potential security breaches.

IDOR Vulnerability Leads to SRMIST eLab Account Takeover

Team Member | January 2022 - March 2022

- Identified and resolved a high-impact Insecure Direct Object Reference (IDOR) vulnerability in the university's eLab portal, preventing unauthorized access to admin and user accounts.
- Demonstrated expertise in web application security by implementing effective countermeasures to safeguard sensitive information.
- This project showcased proficiency in vulnerability detection and secure coding practices.

CERTIFICATIONS

Tracelay: Spark Cyber Defense Bootcamp (2024–2025)

CEH: Certified Ethical Hacker Certification- CEH: Certified Ethical Hacker Certification-(V11) | EC-Council

Database Foundations – **Oracle** (SRMIST)

Amazon Cloud Foundations – **Amazon** (SRMIST)

EDUCATION SRM Institute of Science and Technology (2024) | Chennai, India

- Bachelor of Technology: Computer Science with Cyber Security Specialization.
