PROFESSIONAL SUMMARY

Detail-oriented **B.Tech graduate in Artificial Intelligence and Data Science** with a strong foundation in software development and quality assurance. Skilled in Java, Flask, and web technologies, with hands-on experience in developing and testing AI-driven applications. Adept at problem-solving, debugging, and delivering secure, scalable, and high-quality software solutions.

TECHNICAL SKILLS

Programming & Technologies

- PHP
- Core Java
- JavaScript
- HTML5
- CSS3

Testing & Quality Assurance

- Manual Testing
- UI/UX Testing
- Bug Tracking and Reporting
- Functional Testing

Databases & Tools

- MySQL
- SQLite

EXPERIENCE

Intel Unnati (CIIC)

Artificial Intelligence Learning Intern - Jul 2024 – Aug 2024

- Built and evaluated AI models, enhancing analytical thinking and problem-solving skills.
- Prepared structured technical documentation aligned with industry standards.
- Gained practical exposure to AI development workflows and model evaluation techniques.

PROJECTS

Custom PHP Blog & Content Management System *Independent Project*

- Designed and developed a dynamic blog application using procedural PHP and MySQL, simulating core WordPress CMS functionalities like post management and content routing.
- Engineered backend database operations for efficient Create, Read, Update, and Delete (CRUD) tasks, ensuring seamless data storage and retrieval.
- Configured local server deployment using XAMPP and managed relational database schemas via phpMyAdmin to maintain structural data integrity.

Explainable Deep Learning Framework for Multi-Disease Retinal Diagnosis

IBM Institute | 2025

- Developed and tested a full-stack clinical web application using Flask and SQLite to analyze retinal scans and predict multiple diseases.
- Conducted comprehensive manual testing to validate application functionality, security, and cross-device responsiveness.
- Improved reliability and usability through systematic testing and defect identification.

AI-Powered Smart Retail & CRM Engine

- Developed an intelligent retail management and customer relationship management system for local grocery businesses.
- Implemented inventory tracking, customer management, and sales monitoring features.

- Performed functional and UI/UX testing to ensure accurate data processing and a seamless user experience
-

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science
Arunai Engineering College, Anna University (2022 – 2026)
CGPA: 6.71 / 10

CERTIFICATIONS

- Intel Unnati (CIIC) – Machine Learning and Deep Learning
- Microsoft Learn – Introduction to Generative AI and AI Agents
